

Butternut & Sage

FIG TREE & CO

As some of you might already know, autumn is the season I look forward to all year long and is my favorite for so many different reasons, both personal and for its color palette. For me autumn means a more inward pace, filled with traditions, sights of glorious falling leaves and the smells of the family kitchen. And the colors... butterscotch and cinnamon on the hearth, olives and golds in the garden, soft neutrals in the home.

BUTTERNUT & SAGE is a collection that celebrates all of these things in deep saturated tones. Created around my favorite hues of butterscotch and butternut, I feel warm and cozy just thinking about all that we will create together.
