

WELCOME TO FIG TREE'S HARVEST TABLE AND A "CORNUCOPIA" OF COLOR!

As we both think back on autumn seasons of yesterday, our memories float back to our grandmothers' kitchens as they prepared, canned and preserved the bounty of the summer months. Whether it was my Polish "Babcia" or Lisa's Portuguese "Nana", it was their kitchens that were the true center of our families' lives! For us, that "cornucopia" of colors, flavors and smells is something that carries with it wonderful memories of family and tradition. These memories have inspired us to bring you this collection. We have designed a group that evokes those same feelings of nostalgia for you and your customers. The soft tomato reds and the warm pumpkin tones paired with wonderful neutral florals of creams and taupes are accented with muted eggplant hues and olive greens. We can't imagine anything better for the autumn months than working with these "fresh vintage" harvest tones. So, indulge your senses with this palette, and help your customers indulge with the variety of projects they can create from this collection.
